## Contents

### SOURCES OF INFORMATION FOR ACTION

Perceiving reaching distance for a changed reaching system R.M. BONGERS, A.W. SMITSMAN, C.F. MICHAELS .....	9
Information and its use in the regulation of movement: distinguishing what and how R.J. BOOTSMA, G. MONTAGNE, M. LAURENT.....	15
Perceptual learning and its importance for the visual perception of relative mass D.M. JACOBS, C.F. MICHAELS, S. RUNESON.....	20
Haptic perception of outline 2D shape: the contributions of information <i>via</i> the skin, the joints and the muscles G. JANSSON .....	25
The horizontal-vertical illusion: it has to be coordinated too J. RAUDSEPP .....	31
Visuomotor delays when hitting running spiders J.B.J. SMEETS, E. BRENNER, M.H.E. DE LUSSANET .....	36
Haptic perception of near space: the contribution of cutaneous information A.W. SMITSMAN, R. SCHELLINGERHOUT .....	41
Do we report what we see and do? J. VAN DER KAMP, G.J.P. SAVELSBERGH, S.J. BENNETT .....	45
Weighting time: combining looming and disparity information in judging arrival J. WANN, A. PLOOY, S. RUSHTON .....	50

### Posters

Visual percepts of rounding in glides and vowels: static or dynamic? M.A. CATHIARD.....	53
Peripheral and central vision: dual processes? B. DE BRUYN .....	59

Recovery of <i>a priori</i> known structure from biological motion M. PAVLOVA, A. SOKOLOV, I. BULTHOFF.....	64
How perception for acting and perception for judging are different in acoustic environment M.M. RAMANANTSOA, B. PAVIS, F. GUITTET .....	69
PERCEIVED AND EXTRAPOLATED VISUAL MOTION: BROWN REASSESSED A. SOKOLOV, M. PAVLOVA, W.H. EHRENSTEIN .....	74
Acoustic environment interceptive timing: accuracy in kinematics and amodality of perceptual process J.P. VERNAT, B. PAVIS, M. TLILI .....	79
 <b>PERCEPTION-ACTION COUPLING - NAVIGATION</b>	
Timing the selection of visual information in rhythmic throwing E.L. AMAZEEN, P.G. AMAZEEN, A.A. POST, P.J. BEEK.....	85
Using oculo-motor efference to predict a moving target's position E. BRENNER, J.B.J. SMEETS .....	90
The use of a time-dependent optical expansion pattern in locomotor pointing K. CHANDERLI, B. BAUMBERGER, M. FLÜCKIGER .....	95
Heading judgments by drivers and passengers moving through a simulated environment J. GAFFIÉ, B. BAUMBERGER, M. FLÜCKIGER .....	101
Flying curves in the air: pilot timing strategies using a tunnel-in-the- sky display M. MULDER, H. VAN DER VAART.....	105
The role of eye movement in the perceptual control of driving: looking where you're going? S.D. ROGERS, E.E. KADAR .....	110
 <b>Posters</b>	
Catching by tau coupling: filling in the gaps T. HOFF, R. VAN DER WEEL.....	115

To resonate or not to resonate in the imitative guidance of human action S. VOGT, B. HOPKINS.....	120
--	-----

## COORDINATION - MODELLING

The effect of experience on locomotor-respiratory coupling during wheelchair propulsion P.G. AMAZEEN, E.L. AMAZEEN, P.J. BEEK .....	123
On the emergent nature of postural coordination B.G. BARDY, L. MARIN, T.A. STOFFREGEN, R.J. BOOTSMA .....	128
Modelling postural control of a four link biped to lateral perturbation G. DIETRICH, A.M. WING, M.A. GILLES, I. NIMMO-SMITH .....	133
Relevant model parameters on skier velocity in water jumping A. DUREY, M.M. RAMANANTSOA.....	137
Intentional influence on stability of bimanual coordination in Parkinson's disease R.H. GEUZE, R. HAAXMA.....	141
Examining the role of movement amplitude in rhythmic coordination C.L.E. PEPPER, P.J. BEEK.....	147

### Posters

The degrees of freedom problem in throwing skills: the basketball case B. PAVIS, H. DRISS-TURKI, L. TURKI .....	152
An evaluation of two types of user control interface for the MANUS arm robot E. PLESSIS-DELORME, N. DIDI, M. MOKHTARI, B. GRANDJEAN, A. ROBY-BRAMI.....	156
Co-ordination in throwing skills: novices - experts petanque players comparison B. PAVIS, M.M. RAMANANTSOA.....	162

## MOTOR DEVELOPMENT

The contribution of visual flow and body sense information to spatial orientation by 6- to 12-month-old infants and young adults J.G. BREMNER, F. HATTON .....	167
---	-----

Anticipation behaviour in interceptive actions of 18-month-old infants G.J.P. SAVELSBERGH, J. VAN DER KAMP .....	171
Planning to act: a dynamic systems model of infant reaching E. THELEN .....	176
Development of independent walking: the critical role of double support B. VEREIJKEN, B. BRIL, A. LEDEBT.....	179

### Posters

The perpendicular bias in young children: a comparison of a drawing and construction task A. DAVIS, T. CASWELL.....	185
Effects of body size, speed of locomotion, and locomotor ability on the perception of affordances A.L.H. VAN DER MEER .....	189
The development of early prehension and arm weight R.H. WIMMERS, G.J.P. SAVELSBERGH.....	194

### AFFORDANCES

On cultural apprenticeship and affordance J. PICKERING .....	199
Relating events and affordances T.A. STOFFREGEN, M. UEDA .....	205
When Gibson and Wittgenstein perceive eye-to-eye: caregiver gestures cultivate the lexical development of Latino and Euro-American infants P. ZUKOW-GOLDRING .....	211

### THE BRAIN AND THE PERCEPTION-ACTION COUPLING

Brain processes and sensory-motor devices for goal-directed actions J. PAILLARD.....	217
<b>Author Index</b> .....	219
